EXPERIENCE

PLAYTOWN STUDIOS	Full Stack Developer	July 2025 – Aug 2025
- Developed and managed 10+ reusable UI components in React, enabling adaptive rendering for PDF chat, tagging, and dashboards - Led integration of frontend (React), backend (Node.js, Express), and database (MongoDB), ensuring efficient API communication and data flow - Coordinated communication between Node.js, REST APIs and Python microservice, supporting AI-powered query handling - Managed file upload pipeline using Cloudinary, enabling scalable handling of user-uploaded documents		

KISTECHNOSOFTWARE	Front-End Developer	July 2024 – Aug 2024
- Coded 10+ responsive web pages using HTML5, CSS3, and Bootstrap, ensuring cross-device compatibility - Reduced code duplication by ~60% by modularizing UI components into reusable PHP includes - Integrated backend data into UI replacing static content with real-time rendering		

PROJECTS

Scholarly Student Community	Sept 2025
- Built a full-stack platform with 16+ pages and 6 core features, including note uploads, PDF chat, tagging, likes, search, user dashboards and authentication - Designed and structured 25+ REST API routes using Node.js and Express for content management and user interaction - Integrated Hugging Face (FLAN-T5) via a Python microservice to enable context-aware Q&A over uploaded PDFs - Implemented a tag-based system for structured content organization and improved content discoverability	
Learning Management System	Aug 2024
- Developed a full-stack LMS supporting authentication with 10+ interconnected pages - Engineered authentication flows using PHP handling 2 user flows (login/signup) with password hashing and session management - Built structured navigation across 4+ core features (authentication, dashboard, profile, parent view) improving usability and system organization
